JEROME PARK.

The Spring Meeting-A Large Influx of Racers at the Park Stables Names of Some of the Favorite Horses-Their Training and Condition-General Anticipations.

The prospects for the spring meeting at Jerome Park are exceedingly brilliant. Never were there entered so many splendid racers, and, judging from the present aspect of affairs, a vast amount of money will unquestionably change hands on the results of the several contests. It is evident that the public interest in horse racing is rapidly increasing, and the coming events at Jerome Park will doubtless attack more attention than any praylong reacting half. tract more attention than any previous meeting held under the auspices of the club. Everything promises well. At the present time there are over one hundred and forty horses in the stables, of which two-thirds are in the finest possible condition. Most of them are well known, having repeatedly ed on the turf. A visit to the park yester was sufficient to show that nothing is being pared to bring the animals up to the highest standard. For the past month or so nearly all the stables have been fliled, and the trainers have gone to work assiduously. The exercises have been carried out daily and with the greatest care; so that when he meeting day arrives there will be a much better tisplay than was ever witnessed on the course. But although few stables remain unoccupied several studs bave yet to come, including those of the most ent men of the club.

THE PROGRAMME OF THE BACES reclient, and contains the names of some of the est horses in the country. The meeting opens on next Saturday week, and the first event on the card vill be the hurdle race for all ages, one mile and three-quarters. Next comes the Fordham Stakes, having no fewer than twenty-six nominations. The third race will be the Belmont Stakes for three year olds. But perhaps the greatest event of the entire meeting will be the contest for the Westehester Cup, which the best animals of all will struggle. This is anticipated with the greatest interest, cone. Among them will be the celebrated brown rse Narraganset, General Yorke, Sanford, Nellie d. Corsican and Nannie Douglas. It is safe to tate that all the animals mentioned are in good condition, and their trainers being pretty confident of success a spiendid race must necessarily ensue. Indeed, very few horses on the ground are saing.

THE GERAT EVENT

will be the race for the Westchester Cup. Considering the entries a magnificent contest may be auticipated. Between Narragansett, Abdel Kader, Sanford and General Yorke the greatest struggle will probably be, but there are others on the card that may carry the honors. Such horses as Helmoid, Corsion, Vespucius and Pontoon will most assuredly show a good front. Altogether the event will be traught with considerable interest, and will create more excitement and induce more betting than any such event has done for years. The Beimont Stakes, too, will afford a fine opportunity for a good exhibition, as many well known houses are entered. There will be no race for two year olds at this meeting. The card for the four days contains no less than nineteen events, including several hurdle races.

HORSE NOTES.

As the trotting season progresses more interest is manifested in the movements of horses under preparation and the usual numbers gather to witness the morning exercises at the various tracks. The opening of spring and the parks now building into ummer beauty give a fresh impulse to riders and draw out many to enjoy a morning ride or drive. The improvement in horses upon the Coney Island road has been very marked since the opening of Prospect Park, and many old riders now consider that, with the exception of the very best horses driven on Harlem lane, the average of Brooklyn horses will compare favorably with New York road

horses.

Mr. Fletcher's roan horse Robin is a very fine animal for the road—graceful, stylish, and kind withal, and moving like a machine at a thirty-five gait. Few can beat him on the road, while on the track he has trotted to a wagon in 2:35, driven by his

A very fine lot of horses from all sections of the A very line lot of horses from all sections of the country have been entered, and the display of good stock promises to exceed anything ever before seen in New Jersey. The attendance of visitors to-day was quite slim. The chief feature of the day was the races, which were well contested and excited great interest. The first race was for \$1,000—\$600 to first horse, \$300 to second and \$100 to third. The first money was won by Ira Biddlecom's b. m. Strangs Girl; the second by D. Quinton's b. g. However, on the 4th of last January the will was regularly admitted to probate by Surrogate Moore, of E-sex, and Weaver entered into Possession of THS DEAD MAN'S PROPERTY.

day with fire in her bunkers. Her cargo is uninjured. She is now discharging her coal.

BARK RW GRIFFITH—Captain Chapin, of the steamship Ellen S Terry, which arrived at this port yesterday from Newbern, NC, reports 23d inst, at 7 PM, saw a bark ashore on Brigantine Shoals, and, bearing down to her, discovered that it was the bark R W Griffith, Captain Drummond, 13 days from Matanzas for New York, with a cargo of sugar. The Coast Wrecking Co's solar Competitor was at anchor close by, and communicating with her. At that time the bark was lying in an easy position and not making any water. Captain Chapin took off the captain's wife and 3 children and 1 lady passenger, and brought them to this port. Night coming on, and being unable to render the unfortunate vessel any further assistance, proceeded on her vovage. This action of Captain Chapin is in the highest degree commendable, and worthy of the recognition it merits, in these days, when the desire to make quick passages banishes from the minds of commandidg ofheers every feeling of humanity and closes the ears to appeals for aid from the wrecked and dying on the broad bosom of the ocean, it is pleasant to record an act developing so much of Cartitally kindness.
